

DANIEL MARINBERG

Miami Shores is a unique Village that offers unbelievable community and greenspaces, beautiful and historic architecture, a downtown business corridor that can and should be the envy of surrounding districts, and most importantly a community that is friendly, caring, and diverse. When I moved, I had the choice to move to Coral Gables, Morningside, Belle Meade, Miami Beach. But I chose Miami Shores as the place where I want to start my family and to be my last move- my forever home.

I care about maintaining the beauty and community that is Miami Shores, while helping to guide the Village in modernizing and updating older facilities, supporting our local businesses and schools, and improving certain aspects of quality of life for all residents, including traffic control and enforcement, expediting permitting and inspections, examining greater storm resiliency through infrastructure upgrades, and generating increased revenues for the Village beyond our taxes. Our Village is already the Village Beautiful, and I hope to join the work that past Councils have done to continue to promote and enhance our Village and meet the needs of our residents.
